

Akubatch

Since 1978, **Rajiv Plastic Industries (RPI)** has pioneered the manufacturing of colour and additive masterbatches in India. RPI initiated from custom color compounding of all commodity & engineering plastics to technologically sound production of colour and additive masterbatches under the brand name *Akurate* masterbatches.

RPI has been the leader in manufacturing resin - specific masterbatches for engineering plastics. Rajiv Plastics now offers a revolutionary range of highly loaded masterbatches "*Akubatch*". These masterbatches are specifically designed for the PET bottle industry. Whatever the application - be it for carbonated soft drinks, mineral water, dairy and yoghurt drinks, condiments, oils, health and beauty products, chemicals, or even pesticides.

The *Akubatch* range is a complete package for all your PET processing needs, offering you:

- Excellent compatibility with PET.
- Colour Consistency.
- Reliability.
- Excellent dispersability.
- Excellent economics and cost efficiency.

The *Akubatch* range also includes a number of highly loaded additive packages to improve the properties and increase the life of your product and the product being packed.

We offer:

- Antioxidants
- UV stabilizers
- Nitrogen, Oxygen and Carbon Dioxide scavengers
- Flame Retardants

Please feel free to speak to our technology experts for your specific needs.
