

## Polymer Solutions for the Automotive Industry

**Rajiv Plastic Industries** specializes in Formulating and Compounding all kinds of resins. This gives designers and processors the greatest flexibility providing a full range of multi purpose and resin-specific masterbatches and custom formulated pre-colored compounds.

We can "Tailor Make" and modify compounds for applications involving strength, durability, wear, environmental resistance, flame retardance, color and appearance

**Rajiv Plastic Industries** works in closely with major resin manufacturers, OEM development engineers and Tier I & II suppliers to develop critical compounds and masterbatches.

We guarantee excellent color distribution and lot -to-lot consistency. No other Supplier in India has as strong or experienced base and number of color approvals.

**Rajiv Plastic Industries** is the "One Stop Shop" for every plastic material used inside, outside and under the hood in today's critically demanding automobiles. These cover a broad spectrum ranging from commodity plastics to heat stable, glass filled impact modified nylon and other high impact engineering resins.

Material	Reinforcement					
	Glass Fiber	Glass Beads	Wollastonite	Flame Retardant	Impact Modifier	Talc & CaCO3
Polypropylene	√	√	√	√	√	√
HIPS	√	√				
ABS	√	√		√	√	
Nylon 6	√	√	√	√	√	√
Nylon 6/6	√	√	√	√	√	√
Polycarbonate	√	√		√		

**Rajiv Plastic Industries** the "One Stop Shop" for your every compounding need.
